PayPal experienced a cyberattack in December of 2024, and roughly 35.000 customers had their personal information exposed! While PayPal is still considered a safer option than your credit card directly online... - we recommend opting for two-factor authentication to better secure your account. You Can Use Your Credit Card Through Peer-to-peer Transactions (P2P) and PayPal Is More of a Business Payment Solution. Venmo is geared more towards peer-to-peer transactions (P2P) and PayPal is more of a consumer platform (B2C). Venmo is more versatile.
