E-wallets will get your funds to you fastest, offering a 12-hour turnaround, while Card and MasterCard withdrawals take up to 24 hours. Bank withdrawal times vary by bank and location. Bank of America, Chase, and Wells Fargo typically offer next-business-day processing for card payments, while credit unions and smaller banks may take longer. Some banks offer instant deposits for direct deposits, but this is not available for all accounts or locations. For more information, please contact your bank.
